It might be interesting for our readers to know that our enterprising citizen, Mr. Wm. Findley, has gone to a great expense in going to Europe and purchasing and bringing therefrom a machine for the manufacture of Arrated Waters, the same as manufactured in Belfast, Liverpool, and Glasgow. Most people are aware that large quantities of the drink manufactured in the above mentioned places is imported to this country at very great expense, too great to easily come within reach of those who perhaps require it most; being a beverage highly recommended by the best medical men in England, Socitand and Treland as a most beneficial, cooling and invigorating beverage; entirely free from alcohol or other stimulating drugs. It is to be found in all sick chambers when it can be obtained. While it is good for those possessed of health and strength, it is also whole-Ir might be interesting for our readers

Proved to be a Success.—There has been much inquiry in regard to the glass tools manufactured by Young, Baggs & Co., of Bridgeport, Ohio. As I have had some experience in the use of tools, and more experience in the use of tools, and more experience in the use of tools, and more much smoother, there being no wear on the glass. There is no tool that a cooper values more than a good croze. There is a number of them in use at the present time, and all persons using them are satisfied. I believe that in a short time the glass tools will be used more than any other tools. They come but very little higher, and considering the difference in flormed that shey have secured patents for all kinds of tools that can be made in glass. The howl and croze used by coopers on tight barrels is finished up in the best of style. The boards and howl block are set with glass to prevent them from wearing, also the jointers, floats and block planes. Messrs, Young, Baggs & Co., deserve credit for the energy they have put forth in getting up these glass tools, and also the patronage of all persons wanting first-class tools. A COOPER. isfied.
